

DOES YOUR GUN NEED REPAIRING OR OVERHAULING?

If so, bring it in now, so as to give us plenty of time on it. The fall and winter hunting season will soon be here and many people wait till the last minute before getting their repairing done and then frequently have to wait several days; bring your repair work in now, and when you need the gun call and get it. We carry a large line of extra parts and fittings for nearly all standard makes of shot guns, rifles and revolvers, thereby saving you a great deal over the cost of hand made parts. Remember, we will not turn out a "sloppy" or botched job of work, and have every facility for doing first class light repairing, model making, etc.

DEATH OF J. D. MONIHON

One of Phoenix' First Citizens and
Arizona's Oldest Pioneers.

Colonel J. D. Monihon died last evening at 7:45 o'clock at his residence in the Lincoln addition to the city of Phoenix, after a long and painful illness. The immediate cause of his death can scarcely be given as it seemed to result from general debility that has constantly increased during the later years of his life and more especially since he was first attacked with cancer of the toes a few years ago. He submitted to various operations for that disease and seemed to be recover-

ed but his stomach, bronchial passages and other internal organs succumbed to the weakness of age and perhaps the taking of much strong medicine necessary in combating his previous ailments.

He is survived by his wife, formerly Miss Josie C. Linville, whom he married in 1877, and an only daughter, Miss Anna Monihon.

Funeral arrangements have not yet been perfected but it is likely he will be buried under the auspices of the Masonic lodge of which he has been a member for many years, the G. A. R. and the Phoenix fire department. Colonel Monihon is among the oldest pioneers of the territory and particularly of this valley and his life story since the date of the civil war is in large part, the story of the wrestling of this region from the hands of the savages and the building of this metropolis.

Mr. Monihon was born in Oneida county, N. Y., in November, 1836, going to St. Lawrence county at two years of age. His life was that of a farmer boy till 1854 when he caught the gold fever and went to California, via the isthmus, devoting himself to mining till the outbreak of the civil war when he joined company F, First California Infantry and served till the close of the war. His regiment served through Arizona and New Mexico and his first glimpse of this valley was during the encampment of a detachment of it at Maricopa Wells, July 4, 1862. He fired the celebration salutes to the flag at Tucson leaving there on the 10th for the Rio Grande. They were attacked on the 11th at Apache Pass by the Apaches under command of Chief Cochise. It was a terrific engagement, 77 Indians being killed and Cochise being among the wounded. His regiment served in New Mexico during the next fourteen months then came back to Arizona, establishing Fort Whipple where he remained until his discharge.

Subsequently for some time he was engaged in mining and in carrying mail through the Indian country of central and northern Arizona where he had many thrilling experiences. Finally coming to this valley he built the second house in Phoenix and planted the first cottonwood tree. He was engaged in the livery business for many years on the site now occupied by the Monihon block, which was built in 1882. He was a member of the board of supervisors in 1874. In 1882 he was elected a city councilman, in 1899 he was made chairman of the Arizona Insane Asylum board. In 1893 and again in 1896 he was elected mayor of Phoenix. He is also often referred to as the father of the Phoenix fire department. He was a prominent member of the Masonic lodge of this city and has also

held various offices in the grand body. He was also a past commander of J. W. Owens post G. A. R. and was formerly a delegate to the grand encampment.

THE ONLY ONE.

We are the only distillers in this country selling direct to consumers. Like every success, we have imitators who "claim" to be distillers. They are not take our word. Just see government with a distillery. For proof, you need not take our word. Just see government reports! They are simply dealers, and can "doctor" their whiskey as much as they like and call it any age, for unfortunately the government does not control dealers as it does distillers. Now, these dealers are in business for profit, so when they offer 8 to 12-year-old whiskey for the same or less money than we, as distillers, can sell 7-year-old, the inference is plain. Their whiskey is not the age they claim and is adulterated and watered. The cheaper they sell, the more water and adulteration you get. Beware of our imitators.

If you want honest whiskey, direct from our own distillery, with all its original richness and flavor, carrying a United States registered distiller's guarantee of purity and age and saving you the dealers' enormous profits, then accept the offer we make you elsewhere in this paper. It is backed by a company with a capital of \$500,000 paid in full, the proud reputation of 36 years of continuous success, and over a quarter of a million satisfied customers, so you run no risk. The Hayner Distilling company.
